

K-LOVE is such a blessing in my community. I can now keep the radio turned on in the car or the house at all times without worrying about what songs will play that will offend me or my children. If this radio station is removed, then the Christian children in this community would surely start listening to the violent and sexually suggestive songs and commentary that is on other radio stations. K-LOVE is not offensive. It is a positive station that Christians in the area can listen to. If K-LOVE is removed, my family and I would simply stop listening to radio and resort to listening to Christian CDs. Please keep K-LOVE.
